APR. 15, 2000

Dear Dr. Henny:

For years, the dairy industry has monopolized the term 'milk', and now it has filed a petition to prevent others, especially soy milk producers, from using the word 'milk'. Under FDA standards, milk is the product of a cow. Besides cows' milk, there is nut milk, coconut milk, rice milk, soy milk, and oat milk to name a few. The dairy industry should not be allowed to maintain its monopoly on the use of the word 'milk', and in fact, milk from cows should be labeled as "cows milk" just as soy milk includes the word "soy" on the label.

I am writing to urge you to allow non-dairy beverages to be labeled as "milk" and that you require milk from cows to be labeled clearly as "cows" milk.

Sincerely,

AnnMarie L. Miller
